## MORNING TRAFFIC

Please note the following changes for morning drop-off and playground boundaries:

Morning drop-off will occur in the front of the school, marked by the black line; the arrows represent traffic flow.

Drop-off will continue the same way as currently practiced - stopping your vehicle and children exiting from the RIGHT SIDE only.

The preferred entrance during morning traffic is "ENTRANCE B" ("ENTRANCE A" should be used more for exiting the parking lot).

It is important that vehicles move as forward as possible towards the "star" at the beginning of the drop-off zone to avoid cars backing up on to Como Lake Avenue. If you choose to pass a stopped vehicle, please do so with extreme caution.

During morning traffic, the south entrance to the staff parking lot will be roped off to allow for a safe and continuous drop-off zone.

If you choose to park in the front parking lot, please use the "crosswalk" ONLY when walking to the sidewalk. If you choose to park in the back parking lot, please walk your children from your vehicle to the playground area.

The back parking lot will NOT be used as part of the playground during recess and lunch recess until after construction of the Parish Centre is completed. It will remain open for parishioners and parents to use during the day.
